EXPERIENCE

FRONT END DEVELOPER
COVERS DIRECT | MAR 2017 - DEC 2018

- Lead the design and implementation of front end features across the company's three eCommerce sites
- Refactored and brought all scss and javascript into an object oriented design pattern.
- Created templates used for email marketing, email user cart feature, shipping confirmation, and receipts.
- Optimized and implemented standards for image assets across all three sites
- Updated and maintained multiple MySQL tables to better leverage the dynamic features of Twig

GRAPHIC DESIGNER
LAND RESOURCE DESIGN GROUP | MAY 2013 - APR 2018

- Developed the company's website to give them a presence online to showcase their land development portfolio
- Worked on a team that put together graphics and technical documentation for job bids
- Created aerial view, 2d, and 3d conceptual and working graphics for land development clients
